4 SYNOPSIS:

5 This bill would set up a Rural Hospital 6 Investment Program to function as an institutional 7 conduit for financial support from the public for rural 8 hospitals in the State of Alabama.

9 This bill would incentivize donations to rural hospitals by creating a tax credit for individuals and 10 11 entities to offset their state income tax liability. Qualifying Hospitals would use the gifts to pay for 12 13 their provision of acute care services to rural 14 populations served by the hospitals. These funds may be 15 used not only for direct care and operational expenses 16 but may include expenditures to maintain or upgrade facilities. 17

This bill would establish a board within the Office of State Treasurer to determine the eligibility of qualifying rural hospitals to receive donations qualifying for the tax credit and to operate the program with the support of the Department of Revenue.
