wholesaler licensed by the state licensing authority may operate a sales room to sell the products it manufactures. With the exception of distilleries, these licensees may obtain approval to operate a sales room without any input from the local licensing authority in whose jurisdiction the sales room is located. For distillery sales rooms, the applicant must submit a copy of the application to the local licensing authority, and the local licensing authority may request the state licensing authority to deny the application if the local licensing authority determines that approval of the proposed sales room conflicts with the reasonable requirements of the neighborhood and the desires of the adult inhabitants. However, the state licensing authority may still grant approval of the sales room, regardless of the local licensing authority's determination.

The bill requires all applicants for a sales room license who apply on or after July 1, 2015, to send a copy of the application, at the time of application to the state licensing authority, to the local licensing authority in whose jurisdiction the proposed sales room is located. The local licensing authority has 30 days to provide input on the sales room application if it chooses to do so.

The state licensing authority must consider the local licensing authority's input, if any, and may deny the proposed sales room application if the local licensing authority determines that approval of the sales room would conflict with the needs and desires of the neighborhood. Additionally, unless the local licensing authority affirms that the applicant has complied with local zoning restrictions and satisfies the needs and desires of the neighborhood, the state licensing authority cannot approve the sales room application. If the local licensing authority does not provide a response to the application within 30 days, the state licensing authority shall deem that the local licensing authority does not object to the sales room application.

The state licensing authority, upon the local licensing authority's request, may take action authorized under the "Colorado Liquor Code" (liquor code) against a licensee operating a sales room if the local licensing authority demonstrates that the licensee has committed an act defined as unlawful under the liquor code or shows good cause for the suspension or revocation.

Licensees that either have sales rooms as of July 1, 2015, or that obtain authorization to operate a sales room on or after July 1, 2015, must notify the state licensing authority of all of their sales rooms. The state licensing authority is to maintain a list of all sales rooms in the state and make the list available on its web site.

The requirements of the bill do not apply to a licensed winery, limited winery, distillery, or beer wholesaler that does not sell and serve alcohol beverages for consumption in its sales room.

The state licensing authority is authorized to adopt rules regarding sales rooms.
