Under current law, the state board of education (state board) must, by July 1, 2018, review and revise, as necessary, the state academic standards. The bill directs the state board, in the course of revising the academic standards, to incorporate into the standards for each subject skills relating to the use of information and communications technologies

to find, evaluate, create, and communicate information.

The bill directs the department of education (department) to create a resource bank of materials pertaining to computer science programs, including model standards, samples of curricula, and materials for professional educator development. The department must work with experts in creating and compiling the information. The resource bank is to be available by July 1, 2017. Each school district, charter school, and board of cooperative services may choose whether to provide computer science courses and whether to use the materials in the resource bank.

In addition, the bill creates a grant program in the department that awards grants to school districts or public school teachers in Colorado who wish to pursue additional education that will enable the teachers to teach computer science courses. The bill defines computer science education.

An individual teacher, the teacher's employer on behalf of the teacher, or a school district may apply for a grant. The grant may be used for tuition, fees, training program costs, and books for postsecondary computer science course work that leads to mastery in a computer science content area, computer science training programs, computer science degrees, or industry-recognized certificates in computer science.

The department will administer the grant program pursuant to rules adopted by the state board relating to the application process, the amount and duration of the grants, and the uses of grant moneys.

The department will accept and review grant applications and make recommendations to the state board concerning the award of grants. In awarding grants, the state board may give priority to teachers who meet certain qualifications specified in the bill.

If moneys are appropriated for the grant program, the state board shall award grants pursuant to the program rules.

The department shall report annually to the education committees of the general assembly concerning the implementation of the grant program.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds that:

4 (a) The ability to use and understand technology is a critical skill
5 that students need to achieve success in school, in the workplace, and in
6 their personal lives. While the state board of education has developed and
7 adopted robust state academic standards in ten subjects, these standards

1 have not been updated with guidelines for digital literacy.

2 (b) School districts and public schools that choose to offer
3 computer science courses and teachers who teach these courses do not
4 have access to a set of rigorous grade-level expectations for mastery of
5 this discrete subject area;

6 (c) Computer science is a critical area of growth for Colorado's
7 economy, and thousands of computing jobs with businesses in the state
8 remain unfilled each year. Providing rigorous standards for computer
9 science courses and increasing access to high-quality computer science
10 training programs will help ensure that more students master the
11 computer science skills that can lead to rewarding, high-paying, and
12 in-demand careers.

13 (d) Many students do not have access to technology and computer
14 science training, which results in a lack of gender and ethnic diversity in
15 science, technology, engineering, and mathematics careers. In Colorado,
16 Hispanic workers comprise only six percent of the employees in
17 computer, engineering, and science occupations. Also, only twenty-four
18 percent of the persons working in computer-related occupations and only
19 fifteen percent of engineers are female. Providing voluntary model
20 standards and materials to school districts, boards of cooperative services,
21 and charter schools will help provide more equitable access to computer
22 science courses in public schools throughout the state.

23 (e) In order to increase students' access to technology and
24 computer science education, public school teachers must have the
25 opportunity to obtain additional postsecondary education, including
26 computer science degrees, industry-recognized certificates, or other
27 rigorous computer science training, that enables the teacher to teach

1 computer science courses in public schools.

2 (2) The general assembly finds, therefore, that it is in the best
3 interests of the people of the state of Colorado to include guidelines
4 relating to the use of information and communications technologies
5 within the state academic standards and to direct the department of
6 education to provide a resource bank of model academic content
7 standards in computer science and model course materials for computer
8 science courses for the voluntary use of school districts, boards of
9 cooperative services, and charter schools. The general assembly further
10 finds that it is appropriate to create a grant program that provides public
11 school teachers with financial resources to pay for additional
12 postsecondary education that enables the teacher to teach computer
13 science courses in public schools.

14 **SECTION 2.** In Colorado Revised Statutes, 22-7-1005, **amend**
15 (3) (e) as follows:

16 **22-7-1005. Preschool through elementary and secondary**
17 **education - aligned standards - adoption - revisions.** (3) The state
18 board in adopting the preschool through elementary and secondary
19 education standards shall:

20 (e) Ensure that, in addition to measuring a student's subject matter
21 knowledge, the standards, to the extent practicable, will require a student
22 to develop and demonstrate creativity and innovation skills;
23 critical-thinking and problem-solving skills; communication and
24 collaboration skills; social and cultural awareness; civic engagement;
25 initiative and self-direction; flexibility; productivity and accountability;
26 character and leadership; ~~information technology application skills~~ THE
27 ABILITY TO USE INFORMATION AND COMMUNICATIONS TECHNOLOGIES TO

1 FIND, EVALUATE, CREATE, AND COMMUNICATE INFORMATION; and other
2 skills critical to preparing students for the twenty-first-century workforce
3 and for active citizenship; and

4 **SECTION 3.** In Colorado Revised Statutes, **add 22-2-127.5** as
5 follows:

6 **22-2-127.5. Computer science programs - resource bank.**

7 (1) (a) THE DEPARTMENT SHALL CREATE AND MAINTAIN A RESOURCE
8 BANK OF MATERIALS PERTAINING TO COMPUTER SCIENCE COURSES AND
9 PROGRAMS. AT A MINIMUM, THE RESOURCE BANK MUST INCLUDE MODEL
10 ACADEMIC CONTENT STANDARDS FOR COMPUTER SCIENCE EDUCATION,
11 MODEL PROGRAMS OF INSTRUCTION FOR COMPUTER SCIENCE, SAMPLES OF
12 MODEL COMPUTER SCIENCE CURRICULA, AND MODEL MATERIALS FOR
13 PROFESSIONAL EDUCATOR DEVELOPMENT IN TEACHING COMPUTER
14 SCIENCE. THE DEPARTMENT SHALL ENSURE THAT THE MATERIALS
15 INCLUDED IN THE RESOURCE BANK REPRESENT THE BEST PRACTICES IN
16 TEACHING COMPUTER SCIENCE AND SHALL SEEK INPUT FROM EXPERTS IN
17 THE AREA OF COMPUTER SCIENCE IN CREATING AND COMPILING THE
18 MATERIALS.

19 (b) THE DEPARTMENT SHALL ENSURE THAT THE RESOURCE BANK
20 IS AVAILABLE FOR ACCESS BY SCHOOL DISTRICTS, CHARTER SCHOOLS, AND
21 BOARDS OF COOPERATIVE SERVICES BY JULY 1, 2017.

22 (c) THE DEPARTMENT SHALL IMPLEMENT THE PROVISIONS OF THIS
23 SECTION TO THE FULLEST DEGREE POSSIBLE WITHIN EXISTING RESOURCES.

27 COOPERATIVE SERVICES MAY CHOOSE WHETHER TO PROVIDE CLASSES IN

1 COMPUTER SCIENCE AND WHETHER TO USE THE MATERIALS IN THE
2 RESOURCE BANK TO PROVIDE THOSE CLASSES.

3 (3) THE RESOURCE BANK MAY ALSO IDENTIFY EXISTING
4 RESOURCES AND TOOLS THAT PROVIDE OPPORTUNITIES FOR INDUSTRY
5 EXPERTS IN COMPUTER SCIENCE AND TECHNOLOGY TO BE PAIRED WITH A
6 TEACHER IN THE CLASSROOM TO CO-TEACH COURSES IN COMPUTER
7 SCIENCE. THE RESOURCE BANK MAY ALSO INCLUDE A LISTING OF SCHOOLS
8 AND SCHOOL DISTRICTS THAT ARE INTERESTED IN FINDING INDUSTRY
9 EXPERTS WHO WISH TO VOLUNTEER TO CO-TEACH COMPUTER SCIENCE
10 COURSES, AND A LISTING OF INDUSTRY EXPERTS WHO ARE INTERESTED IN
11 VOLUNTEERING TO CO-TEACH COMPUTER SCIENCE COURSES.
