DIGEST OF HB 1265 (Updated January 24, 2020 11:51 am - DI 129)

Citations Affected: IC 16-41; noncode.

Synopsis: Drinking water testing in Lake County. Requires that the drinking water in every school building be tested before January 1, 2023, for compliance with the national primary drinking water regulations for lead and copper. Provides, however, that the testing requirement is satisfied if the drinking water of the school building has already been tested for compliance with the national primary drinking water regulations at least once since 2016. Provides that if a test of the drinking water of a school building indicates the presence of lead in the water equal to or greater than the federal lead action level of 15 parts per billion, the person or entity having authority over the school building is required to take action to reduce the lead levels in the drinking water to less than 15 parts per billion.

Effective: July 1, 2020.

2 CODE AS A **NEW** SECTION TO READ AS FOLLOWS
3 [EFFECTIVE JULY 1, 2020]: **Sec. 3. (a) Except as provided in**
4 **subsection (b), the drinking water in every school building located**
5 **in Lake County shall be tested before January 1, 2023, to**

18 create a special need to protect the children of Lake County
19 against exposure to lead through the drinking water in school
20 buildings; and
21 (2) that, for purposes of Article 4, Section 23 of the
