- of the committee as set forth in KRS 164.004;
- (3) Develop a system of public accountability related to the strategic agenda by evaluating the performance and effectiveness of the state's postsecondary system. The council shall prepare a report in conjunction with the accountability reporting described in KRS 164.095, which shall be submitted to the committee, the Governor, and the General Assembly by December 1 annually. This report shall include a description of contributions by postsecondary institutions to the quality of elementary and secondary education in the Commonwealth;
 - (4) Review, revise, and approve the missions of the state's universities and the Kentucky Community and Technical College System. The Council on Postsecondary Education shall have the final authority to determine the compliance of postsecondary institutions with their academic, service, and research missions;
 - (5) Establish and ensure that all postsecondary institutions in Kentucky cooperatively provide for an integrated system of postsecondary education. The council shall guard against inappropriate and unnecessary conflict and duplication by promoting transferability of credits and easy access of information among institutions;
 - (6) Engage in analyses and research to determine the overall needs of postsecondary education and adult education in the Commonwealth;
 - (7) Develop plans that may be required by federal legislation. The council shall for all purposes of federal legislation relating to planning be considered the "single state agency" as that term may be used in federal legislation. When federal legislation requires additional representation on any "single state agency," the Council on Postsecondary Education shall establish advisory groups necessary to satisfy federal legislative or regulatory guidelines;
 - (8) (a) Determine tuition and approve the minimum qualifications for admission to the state postsecondary educational system. In defining residency, the council shall classify a

student as having Kentucky residency if the student met the residency requirements at the beginning of his or her last year in high school and enters a Kentucky postsecondary education institution within two (2) years of high school graduation. In determining the tuition for non-Kentucky residents, the council shall consider the fees required of Kentucky students by institutions in adjoining states, the resident fees charged by other states, the total actual per student cost of training in the institutions for which the fees are being determined, and the ratios of Kentucky students to non-Kentucky students comprising the enrollments of the respective institutions, and other factors the council may in its sole discretion deem pertinent, except that the Kentucky Community and Technical College System may assess a mandatory student fee not to exceed eight dollars (\$8) per credit hour to be used exclusively for debt service on amounts not to exceed seventy-five percent (75%) of the total projects cost of the Kentucky Community and Technical College System agency bond projects included in 2014 Ky. Acts ch. 117, Part II, J., 11.

- (b) The Kentucky Community and Technical College System mandatory fee established in this subsection shall only be used for debt service on agency bond projects.
 - (c) Any fee established as provided by this subsection shall cease to be assessed upon the retirement of the project bonds for which it services debt.
 - (d) Prior to the issuance of any bonds, the Kentucky Community and Technical College System shall certify in writing to the secretary of the Finance and Administration Cabinet that sufficient funds have been raised to meet the local match equivalent to twenty-five percent (25%) of the total project cost;
- (9) Devise, establish, and periodically review and revise policies to be used in making recommendations to the Governor for consideration in developing recommendations to the General Assembly for appropriations to the universities, the Kentucky Community and

Technical College System, and to support strategies for persons to maintain necessary levels of literacy throughout their lifetimes. The council has sole discretion, with advice of the Strategic Committee on Postsecondary Education and the executive officers of the postsecondary education system, to devise policies that provide for allocation of funds among the universities and the Kentucky Community and Technical College System, **except the council shall not establish any race-conscious target or metric not authorized in Section 1 of this Act as a requirement to impact performance funding;**

- (10) Lead and provide staff support for the biennial budget process as provided under KRS Chapter 48, in cooperation with the committee;
- (11) (a) Except as provided in paragraph (b) of this subsection, review and approve all capital construction projects covered by KRS 45.750(1)(f), including real property acquisitions, and regardless of the source of funding for projects or acquisitions. Approval of capital projects and real property acquisitions shall be on a basis consistent with the strategic agenda and the mission of the respective universities and the Kentucky Community and Technical College System.
- (b) The organized groups that are establishing community college satellites as branches of existing community colleges in the counties of Laurel, Leslie, and Muhlenberg, and that have substantially obtained cash, pledges, real property, or other commitments to build the satellite at no cost to the Commonwealth, other than operating costs that shall be paid as part of the operating budget of the main community college of which the satellite is a branch, are authorized to begin construction of the satellite on or after January 1, 1998;
- (12) Require reports from the executive officer of each institution it deems necessary for the effectual performance of its duties;
- (13) Ensure that the state postsecondary system does not unnecessarily duplicate services and

programs provided by private postsecondary institutions and shall promote maximum cooperation between the state postsecondary system and private postsecondary institutions. Receive and consider an annual report prepared by the Association of Independent Kentucky Colleges and Universities stating the condition of independent institutions, listing opportunities for more collaboration between the state and independent institutions and other information as appropriate;

- (14) Establish course credit, transfer, and degree components as required in KRS 164.2951;
- (15) Define and approve the offering of all postsecondary education technical, associate, baccalaureate, graduate, and professional degree, certificate, or diploma programs in the public postsecondary education institutions. The council shall expedite wherever possible the approval of requests from the Kentucky Community and Technical College System board of regents relating to new certificate, diploma, technical, or associate degree programs of a vocational-technical and occupational nature. Without the consent of the General Assembly, the council shall not abolish or limit the total enrollment of the general program offered at any community college to meet the goal of reasonable access throughout the Commonwealth to a two (2) year course of general studies designed for transfer to a baccalaureate program. This does not restrict or limit the authority of the council, as set forth in this section, to eliminate or make changes in individual programs within that general program;
- (16) Eliminate, in its discretion, existing programs or make any changes in existing academic programs at the state's postsecondary educational institutions, taking into consideration these criteria:

- (18) Review proposals and make recommendations to the Governor regarding the establishment of new public community colleges, technical institutions, and new four (4) year colleges;
- (19) Postpone the approval of any new program at a state postsecondary educational institution, unless the institution has met its equal educational opportunity goals, as established by the council. In accordance with administrative regulations promulgated by the council, those institutions not meeting the goals shall be able to obtain a temporary waiver, if the institution has made substantial progress toward meeting its equal educational opportunity goals, **except the council shall not establish any equal opportunity goals that include any race-conscious target or metric not authorized in Section 1 of this Act as a requirement to impact performance funding**;
- (20) Ensure the coordination, transferability, and connectivity of technology among postsecondary institutions in the Commonwealth including the development and implementation of a technology plan as a component of the strategic agenda;

2. Establish delivery methods by which the orientation and education program can be completed in person or electronically by new members within one (1) year of their appointment or election;
 3. Provide an annual report to the Governor and Legislative Research Commission of those new board members who do not complete the required orientation and education program; and
