**An Act To Preserve Deer Habitat**

**Emergency preamble.** Whereas, acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** this legislation directs the Land for Maine's Future Board to give a preferential consideration to certain projects that conserve lands that are important for conserving deer; and

**Whereas,** this legislation provides for the acquisition and management of areas that are important to the conservation of deer and provides that these lands must be managed with deer conservation as the highest management priority; and

**Whereas,** funding for such acquisition and management may be available before the end of the 90-day period; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 5 MRSA §6203, sub-§3,** as amended by PL 2021, c. 135, §3, is further amended to read:

**3. Fund proceeds.** The proceeds of the Land for Maine's Future Fund may be applied and expended to:

A management plan developed under this paragraph may also apply to adjoining deer wintering areas in the same ownership or under the same management.

**Sec. 2. 5 MRSA §6207, sub-§2**, as amended by PL 2007, c. 64, §1 and c. 353, §§1 to 3, is further amended to read:

**2. Determination of state significance.** In determining whether a proposed acquisition must be funded, in full or in part, by the Land for Maine's Future Fund or the Public Access to Maine Waters Fund, the board shall consider whether the site is of state significance and:

**3. Priorities.** Whenever possible, the Land for Maine's Future Fund and the Public Access to Maine Waters Fund must be used for land acquisition projects when matching funds are available from cooperating entities, as long as the proposed acquisition meets all other criteria set forth in this chapter. For acquisitions funded by the Land for Maine's Future Fund, the board shall give priority to projects that conserve lands with multiple outstanding resource or recreation values or a single exceptional value, ~~conserve and protect deer wintering areas~~, provide geographic representation and build upon or connect existing holdings.

A. When evaluating projects to be funded, the board shall give a preferential consideration to projects that conserve lands that have been determined by the Department of Inland Fisheries and Wildlife to be important for conserving deer in northern, eastern and western Maine. To be given preferential consideration under this paragraph, a project must result in the acquisition of a fee interest or an easement interest in the land, the department's holding the interest in the land and the department's managing the land area as a wildlife management area, as defined in Title 12, section 10001, subsection 74, with deer conservation as the highest management priority. Only projects that satisfy the requirements of this paragraph may be given preferential consideration. Nothing in this paragraph limits the ability of the board to use the Land for Maine's Future Fund to fund other projects that may also help conserve deer or deer habitat but that do not receive preferential consideration under this paragraph.

When acquiring land or interest in land, the board shall examine public vehicular access rights to the land and, whenever possible and appropriate, acquire guaranteed public vehicular access as part of the acquisition.
