### AN ACT

To repeal sections 191.1146, 195.015, 195.017, 195.417, 579.060, 579.065, and 579.068, RSMo, and to enact in lieu thereof nine new sections relating to controlled substances, with penalty provisions and an emergency clause for a certain section.

---

*Be it enacted by the General Assembly of the State of Missouri, as follows:*

Section A. Sections 191.1146, 195.015, 195.017, 195.417, 579.060, 579.065, 2 and 579.068, RSMo, are repealed and nine new sections enacted in lieu thereof, 3 to be known as sections 191.1146, 195.015, 195.017, 195.417, 195.805, 195.830, 4 579.060, 579.065, and 579.068, to read as follows:

191.1146. 1. Physicians licensed under chapter 334 who use telemedicine 2 shall ensure that a properly established physician-patient relationship exists with 3 the person who receives the telemedicine services. The physician-patient 4 relationship may be established by:

5 (1) An in-person encounter through a medical interview and physical 6 examination;

7 (2) Consultation with another physician, or that physician's delegate, who 8 has an established relationship with the patient and an agreement with the 9 physician to participate in the patient's care; or

10 (3) A telemedicine encounter, if the standard of care does not require an 11 in-person encounter, and in accordance with evidence-based standards of practice 12 and telemedicine practice guidelines that address the clinical and technological 13 aspects of telemedicine.

**EXPLANATION—Matter enclosed in bold-faced brackets [thus] in this bill is not enacted and is intended to be omitted in the law.**

14           2. In order to establish a physician-patient relationship through  
15 telemedicine:

16           (1) The technology utilized shall be sufficient to establish an informed  
17 diagnosis as though the medical interview and physical examination has been  
18 performed in person; and

19           (2) Prior to providing treatment, including issuing prescriptions **or**  
20 **physician certifications under article XIV of the Missouri constitution,**  
21 a physician who uses telemedicine shall interview the patient, collect or review  
22 relevant medical history, and perform an examination sufficient for the diagnosis  
23 and treatment of the patient. A questionnaire completed by the patient, whether  
24 via the internet or telephone, does not constitute an acceptable medical interview  
25 and examination for the provision of treatment by telehealth.

          195.015. 1. The department of health and senior services shall administer  
2 this chapter and may add substances to the schedules after public notice and  
3 hearing. In making a determination regarding a substance, the department of  
4 health and senior services shall consider the following:

5           (1) The actual or relative potential for abuse;

6           (2) The scientific evidence of its pharmacological effect, if known;

7           (3) The state of current scientific knowledge regarding the substance;

8           (4) The history and current pattern of abuse;

9           (5) The scope, duration, and significance of abuse;

10          (6) The risk to the public health;

11          (7) The potential of the substance to produce psychic or physiological  
12 dependence liability; and

13          (8) Whether the substance is an immediate precursor of a substance  
14 already controlled under this chapter.

15           2. After considering the factors enumerated in subsection 1 of this section  
16 the department of health and senior services shall make findings with respect  
17 thereto and issue a rule controlling the substance if it finds the substance has a  
18 potential for abuse.

19           3. If the department of health and senior services designates a substance  
20 as an immediate precursor, substances which are precursors of the controlled  
21 precursor shall not be subject to control solely because they are precursors of the  
22 controlled precursor.

23           4. If any substance is designated, rescheduled, or deleted as a controlled  
24 substance under federal law and notice thereof is given to the department of

25 health and senior services, the department of health and senior services shall  
26 similarly control the substance under this chapter [after the expiration of] **and**  
27 **shall submit emergency rules to the secretary of state under section**  
28 **536.025 within** thirty days [from] **of** publication in the federal register of a final  
29 order designating a substance as a controlled substance or rescheduling or  
30 deleting a substance, unless within that thirty-day period, the department of  
31 health and senior services objects to inclusion, rescheduling, or deletion. In that  
32 case, the department of health and senior services shall publish the reasons for  
33 objection and afford all interested parties an opportunity to be heard. At the  
34 conclusion of the hearing, the department of health and senior services shall  
35 publish its decision, which shall be final unless altered by statute. Upon  
36 publication of objection to inclusion, rescheduling or deletion under this chapter  
37 by the department of health and senior services, control under this chapter is  
38 stayed as to the substance in question until the department of health and senior  
39 services publishes its decision. **If the department promulgates emergency**  
40 **rules under this subsection, such rules may, notwithstanding the**  
41 **provisions of subsection 7 of section 536.025, remain in effect until the**  
42 **general assembly concludes its next regular session following the**  
43 **imposition of any such rules. The department shall clearly state if the**  
44 **rules shall be in effect pursuant to this subsection or subsection 7 of**  
45 **section 536.025 in the emergency statement filed with the secretary of**  
46 **state.**

47 5. The department of health and senior services shall exclude any  
48 nonnarcotic substance from a schedule if such substance may, under the federal  
49 Food, Drug, and Cosmetic Act and the law of this state, be lawfully sold over the  
50 counter without a prescription.

51 6. The department of health and senior services shall prepare a list of all  
52 drugs falling within the purview of controlled substances. Upon preparation, a  
53 copy of the list shall be filed in the office of the secretary of state.

195.017. 1. The department of health and senior services shall place a  
2 substance in Schedule I if it finds that the substance:

3 (1) Has high potential for abuse; and  
4 (2) Has no accepted medical use in treatment in the United States or  
5 lacks accepted safety for use in treatment under medical supervision.
