

CHAPTER.....

AN ACT relating to emergency medical services; requiring a host organization of a special event to provide emergency medical personnel and emergency medical services at the site of the special event under certain circumstances; providing a penalty; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law governs the provision of emergency medical services to persons in this State. (Chapter 450B of NRS) **Sections 11 and 12** of this bill provide that, in a county whose population is 100,000 or more (currently Clark and Washoe Counties), if a special event is projected to be attended by 2,500 or more persons but less than 50,000 persons at the same time, the host organization of the special event is required to provide certain medical personnel and emergency medical services if certain factors apply to the special event. **Section 13** of this bill requires that in all counties where a special event is projected to be attended by 50,000 or more persons at the same time, the host organization shall comply with the requirements for the provision of first-aid stations, dedicated advanced life support ambulances and certain medical personnel. The definition of “special event” set forth in **section 10** of this bill excludes a temporary event which is held at a location that: (1) is designed to host certain temporary events; and (2) has permanently established methods of providing first-aid or emergency medical services at the location. **Section 6** of this bill defines a “host organization” as the person who obtained the permit for the special event or, if a permit was not obtained for the special event, the person who sponsored the special event. The number of first-aid stations, dedicated advanced life support ambulances and medical personnel and the level of skill of the medical personnel required varies based on the number of persons who are projected to attend the special event and certain other factors.

Existing law provides that a violation of the provisions which govern emergency medical services is a misdemeanor. Existing law further authorizes the Health Division of the Department of Health and Human Services to impose an administrative penalty against any person who violates those provisions. (NRS 450B.900) Those penalties are applicable to a violation of the provisions of **sections 11-13**.
