

CHAPTER.....

AN ACT relating to utilities; requiring a political subdivision of this State to allow the construction, installation, maintenance, operation, repair and replacement of micro wireless facilities under certain circumstances; affirming the authority of political subdivisions of this State to exercise certain powers; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Section 8 of this bill requires a political subdivision of this State to allow a video service provider, or an affiliate thereof, to construct, install, place, maintain, operate, repair or replace micro wireless facilities on the video service network of the provider. **Section 8** also requires a video service provider to install a switch near certain locations where radio antennas are mounted on strand of the provider to allow the disconnection of power from the antenna. Finally, **section 8** provides that these provisions do not otherwise: (1) limit the authority of a local government to license telecommunication providers and establish certain conditions on such licenses; or (2) affect the authority of a local government to manage the public rights-of-way or exercise its police powers and land use powers.

Existing law authorizes a local government to impose a franchise fee on video service providers. (NRS 711.670) **Section 12** of this bill provides that: (1) such a fee is in lieu of any recurring rental charge that may be imposed by a political subdivision of this State on a video service provider or an affiliate thereof for the use of a public right-of-way or highway by a micro wireless facility installed by the provider or affiliate; and (2) the provisions of NRS 711.670 do not otherwise restrict the right of a local government to impose certain other fees on an affiliate.
