

ASSEMBLY BILL NO. 353—ASSEMBLYWOMAN SWANK

MARCH 19, 2019

Referred to Committee on Government Affairs

SUMMARY—Revises provisions governing the disposition of certain types of materials and waste produced by certain governmental entities. (BDR 40-623)

FISCAL NOTE: Effect on Local Government: No.  
Effect on the State: Yes.

~

EXPLANATION – Matter in *bolded italics* is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to recycling; revising certain provisions governing recyclable material; requiring certain governmental entities to recycle certain additional products and waste; providing certain exemptions from such a requirement; revising the required contents of a report made to the Legislature on the status of recycling programs; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

Existing law requires the State Environmental Commission to adopt regulations establishing minimum standards for: (1) separating at the source recyclable material from other solid waste originating from residential premises and public buildings where services for the collection of solid waste are provided, including the placement of recycling containers where those services are provided. (NRS 444A.020) **Section 1.8** of this bill clarifies that the term “recyclable material” in this requirement includes electronic waste, paper and paper products.

Existing law requires courts, the Legislative Counsel Bureau, state agencies, school districts and the Nevada System of Higher Education to recycle paper and paper products unless the cost of recycling is unreasonable and would place an undue burden on the entity. (NRS 1.115, 218F.310, 232.007, 386.4159, 396.437) **Sections 2-6** of this bill require these entities to also recycle electronic waste and other recyclable materials, except for construction and demolition waste. **Sections 2-6** also use standardized definitions of electronic waste, paper, paper products and recyclable material that conform to the definitions in the regulations relating to recycling adopted by the State Environmental Commission.

Existing law also authorizes the Legislative Counsel Bureau and state agencies to apply for a waiver from compliance with the requirements for recycling. (NRS 218F.310, 232.007) **Sections 3 and 4** of this bill eliminate the waiver process and exempt these entities from complying with the requirements relating to recycling if

21 these entities determine that the cost of compliance is unreasonable and would  
22 place an undue burden on the entity.

23 Additionally, existing law requires the Legislative Commission, state agencies,  
24 school districts and the Nevada System of Higher Education to prescribe  
25 procedures for the recycling of certain waste. (NRS 218F.310, 232.007, 386.4159,  
26 396.437) **Sections 3-6** remove the requirement for these entities to prescribe such  
27 procedures and instead, require these entities to consult with the State Department  
28 of Conservation and Natural Resources for the disposition of such waste.

29 Existing law also requires any money received by the Legislative Counsel  
30 Bureau for recycling or causing to be recycled certain paper products and waste to  
31 be paid by the Director to the State Treasurer for credit to the State General Fund.  
32 (NRS 218F.310) **Section 3** requires money received by the Legislative Counsel  
33 Bureau for recycling or causing to be recycled certain paper products, electronic  
34 waste and other recyclable materials to be: (1) accounted for separately; and (2)  
35 used to carry out the provisions of **section 3**.

36 Existing law requires the Director of the State Department of Conservation and  
37 Natural Resources to deliver a biennial report to the Director of the Legislative  
38 Counsel Bureau on the status of current and proposed programs for recycling and  
39 reuse of materials. (NRS 444A.070) **Section 1.9** of this bill requires such a report to  
40 include the amount of recycled material reported by state agencies.
