12 387.122 1. For making the apportionments of the State
13 Distributive School Account in the State General Fund required by
14 the provisions of this title, the basic support guarantee per pupil for
15 each school district is established by law for each school year. The
16 formula for calculating the basic support guarantee may be
17 expressed as an estimated weighted average per pupil, based on the
18 total expenditures for public education in the immediately preceding
19 even-numbered fiscal year, plus any legislative appropriations for
20 the immediately succeeding biennium, minus those local funds not
21 guaranteed by the State pursuant to NRS 387.163.

22 2. The estimated weighted average per pupil for the State must
23 be calculated as a basic support guarantee for each school district
24 through an equity allocation model that incorporates:

25 (a) Factors relating to wealth in the school district;

26 (b) Salary costs;

27 (c) Transportation; ~~and~~

28 (d) *Conditions that are considered to be guaranteed to pupils*
29 *by the Department, including, without limitation, class-size ratios*
30 *by grade level; and*

31 (e) Any other factor determined by the Superintendent of Public
32 Instruction after consultation with the school districts and the State
33 Public Charter School Authority.

34 3. The basic support guarantee per pupil must include a
35 statewide multiplier for pupils with disabilities. Except as otherwise
36 provided in this section, the funding provided to each school district
37 and charter school through the multiplier for pupils with disabilities
38 is limited to the actual number of pupils with disabilities enrolled in
39 the school district or charter school, not to exceed 13 percent of total
40 pupil enrollment for the school district or charter school.

41 4. Except as otherwise provided in this subsection, if a school
42 district or charter school has reported an enrollment of pupils with
43 disabilities equal to more than 13 percent of total pupil enrollment,
44 the school district or charter school must receive, for each such
45 additional pupil, an amount of money equal to one-half of the

1 statewide multiplier then in effect for pupils with disabilities. An
2 apportionment made to a school district or charter school pursuant
3 to this subsection is subject to change from year to year in
4 accordance with the number of pupils with disabilities enrolled in
5 the school district or charter school. If the money available for
6 apportionment pursuant to this subsection is insufficient to make
7 the apportionment otherwise required by this subsection, the
8 Superintendent of Public Instruction shall proportionately reduce the
9 amount so apportioned to each school district and charter school.
10 The Department shall account separately for any money apportioned
11 pursuant to this subsection.

12 5. Not later than July 1 of each even-numbered year, the
13 Superintendent of Public Instruction shall review and, if necessary,
14 revise the factors used for the equity allocation model adopted for
15 the previous biennium and present the review and any revisions at a
16 meeting of the Legislative Committee on Education for
17 consideration and recommendations by the Committee. After the
18 meeting, the Superintendent of Public Instruction shall consider any
19 recommendations of the Legislative Committee on Education,
20 determine whether to include those recommendations in the equity
21 allocation model and adopt the model. The Superintendent of Public
22 Instruction shall submit the equity allocation model to the:

23 (a) Governor for inclusion in the proposed executive budget.

24 (b) Director of the Legislative Counsel Bureau for transmittal to
25 the next regular session of the Legislature.

26 6. The Department shall make available updated information
27 regarding the equity allocation model on the Internet website
28 maintained by the Department.

29 **Sec. 10.** NRS 387.139 is hereby amended to read as follows:

30 387.139 1. The Department shall prescribe school
31 achievement targets and performance targets which must be used by
32 a public school that receives money pursuant to NRS 387.131 to
33 evaluate and track the performance of pupils who receive services
34 pursuant to NRS 387.133. The school achievement targets and
35 performance targets prescribed by the Department must be aligned
36 to the statewide system of accountability for public schools.

5 contains information for the preceding school year and submit a
6 report to the Department which contains such information for all
7 public schools located in the school district or sponsored by the
8 sponsor. *The report must include school-level, per-pupil*
9 *expenditures, including, without limitation, the amount of federal,*
10 *state and local funds and the actual personnel and nonpersonnel*
11 *expenditures of such funds disaggregated by the source of the*
12 *funds for each school district, each school within a school district*
13 *and each charter school for the preceding fiscal year.*

14 4. The Department shall contract with an independent evaluator
15 to evaluate the effectiveness of services provided pursuant to NRS
16 387.133. The evaluation must include, without limitation, a
17 determination of whether each public school is making an effective
18 use of the money received by the public school pursuant to NRS
19 387.131 and an identification of services which have been identified
20 to offer the greatest and the least improvement to pupil performance.
21 The evaluation must be provided on or before February 1 of:

22 (a) Each even-numbered year to the Legislative Committee on
