Sec. 3781.10. (A) (1) The board of building standards shall 60
formulate and adopt rules governing the erection, construction, 61
repair, alteration, and maintenance of all buildings or classes 62
of buildings specified in section 3781.06 of the Revised Code, 63
including land area incidental to those buildings, the 64
construction of industrialized units, the installation of 65
equipment, and the standards or requirements for materials used 66
in connection with those buildings. The board shall incorporate 67
those rules into separate residential and nonresidential 68
building codes. The standards shall relate to the conservation 69
of energy and the safety and sanitation of those buildings. 70

(2) The rules governing nonresidential buildings are the 71
lawful minimum requirements specified for those buildings and 72
industrialized units, except that no rule other than as provided 73
in division (C) of section 3781.108 of the Revised Code that 74
specifies a higher requirement than is imposed by any section of 75

the Revised Code is enforceable. The rules governing residential 76
buildings are uniform requirements for residential buildings in 77
any area with a building department certified to enforce the 78
state residential building code. In no case shall any local code 79
or regulation differ from the state residential building code 80
unless that code or regulation addresses subject matter not 81
addressed by the state residential building code or is adopted 82
pursuant to section 3781.01 of the Revised Code. 83

(3) The rules adopted pursuant to this section are 84
complete, lawful alternatives to any requirements specified for 85
buildings or industrialized units in any section of the Revised 86
Code. Except as otherwise provided in division (I) of this 87
section, the board shall, on its own motion or on application 88
made under sections 3781.12 and 3781.13 of the Revised Code, 89

sections 3781.06 to 3781.18 of the Revised Code. 92

(B) The board shall report to the general assembly 93
proposals for amendments to existing statutes relating to the 94
purposes declared in section 3781.06 of the Revised Code that 95
public health and safety and the development of the arts require 96
and shall recommend any additional legislation to assist in 97
carrying out fully, in statutory form, the purposes declared in 98
that section. The board shall prepare and submit to the general 99
assembly a summary report of the number, nature, and disposition 100
of the petitions filed under sections 3781.13 and 3781.14 of the 101
Revised Code. 102

(C) On its own motion or on application made under 103
sections 3781.12 and 3781.13 of the Revised Code, and after 104
thorough testing and evaluation, the board shall determine by 105

rule that any particular fixture, device, material, process of 106
manufacture, manufactured unit or component, method of 107
manufacture, system, or method of construction complies with 108
performance standards adopted pursuant to section 3781.11 of the 109
Revised Code. The board shall make its determination with regard 110
to adaptability for safe and sanitary erection, use, or 111
construction, to that described in any section of the Revised 112
Code, wherever the use of a fixture, device, material, method of 113
manufacture, system, or method of construction described in that 114
section of the Revised Code is permitted by law. The board shall 115
amend or annul any rule or issue an authorization for the use of 116
a new material or manufactured unit on any like application. No 117
department, officer, board, or commission of the state other 118
than the board of building standards or the board of building 119
appeals shall permit the use of any fixture, device, material, 120
method of manufacture, newly designed product, system, or method 121
of construction at variance with what is described in any rule 122
the board of building standards adopts or issues or that is 123
authorized by any section of the Revised Code. Nothing in this 124
section shall be construed as requiring approval, by rule, of 125
plans for an industrialized unit that conforms with the rules 126
the board of building standards adopts pursuant to section 127
3781.11 of the Revised Code. 128

(D) The board shall recommend rules, codes, and standards 129
to help carry out the purposes of section 3781.06 of the Revised 130
Code and to help secure uniformity of state administrative 131
rulings and local legislation and administrative action to the 132
bureau of workers' compensation, the director of commerce, any 133
other department, officer, board, or commission of the state, 134
and to legislative authorities and building departments of 135
counties, townships, and municipal corporations, and shall 136

recommend that they audit those recommended rules, codes, and 137
standards by any appropriate action that they are allowed 138
pursuant to law or the constitution. 139

(E) (1) The board shall certify municipal, township, and 140
county building departments and the personnel of those building 141
departments, and persons and employees of individuals, firms, or 142
corporations as described in division (E) (7) of this section to 143
exercise enforcement authority, to accept and approve plans and 144
specifications, and to make inspections, pursuant to sections 145
3781.03, 3791.04, and 4104.43 of the Revised Code. 146

(2) The board shall certify departments, personnel, and 147
persons to enforce the state residential building code, to 148
enforce the nonresidential building code, or to enforce both the 149
residential and the nonresidential building codes. Any 150
department, personnel, or person may enforce only the type of 151
building code for which certified. 152

(3) The board shall not require a building department, its 153
personnel, or any persons that it employs to be certified for 154
residential building code enforcement if that building 155
department does not enforce the state residential building code. 156
The board shall specify, in rules adopted pursuant to Chapter 157
119. of the Revised Code, the requirements for certification for 158
residential and nonresidential building code enforcement, which 159
shall be consistent with this division. The requirements for 160
residential and nonresidential certification may differ. Except 161
as otherwise provided in this division, the requirements shall 162
include, but are not limited to, the satisfactory completion of 163
an initial examination and, to remain certified, the completion 164
of a specified number of hours of continuing building code 165
education within each three-year period following the date of 166

certification which shall be not less than thirty hours. The 167
rules shall provide that continuing education credits and 168
certification issued by the council of American building 169
officials, national model code organizations, and agencies or 170
entities the board recognizes are acceptable for purposes of 171
this division. The rules shall specify requirements that are 172
consistent with the provisions of section 5903.12 of the Revised 173
Code relating to active duty military service and are 174
compatible, to the extent possible, with requirements the 175
council of American building officials and national model code 176
organizations establish. 177

(4) The board shall establish and collect a certification 178
and renewal fee for building department personnel, and persons 179
and employees of persons, firms, or corporations as described in 180
this section, who are certified pursuant to this division. 181

(5) Any individual certified pursuant to this division 182
shall complete the number of hours of continuing building code 183
education that the board requires or, for failure to do so, 184
forfeit certification. 185

(6) This division does not require or authorize the board 186
to certify personnel of municipal, township, and county building 187
departments, and persons and employees of persons, firms, or 188
corporations as described in this section, whose 189
responsibilities do not include the exercise of enforcement 190
authority, the approval of plans and specifications, or making 191
inspections under the state residential and nonresidential 192
building codes. 193

(7) Enforcement authority for approval of plans and 194
specifications and enforcement authority for inspections may be 195
exercised, and plans and specifications may be approved and 196
