A. The Department of Corrections shall develop a matrix of sanctions and incentives to address behavior committed by parolees and probationers who are being supervised by the Department. The Department shall be authorized to use a violation response and intermediate sanction process based on the matrix to apply to any technical violations of the terms and conditions of parole and probation, as defined in Section 502 of Title 57 of the Oklahoma Statutes. The matrix shall be used for probationers in accordance with the procedures provided in Section 991b of Title 22 of the Oklahoma Statutes, and for parolees in accordance with this section.

B. Within four (4) working days of the discovery of a parole violation, the probation and parole officer shall initiate the violation response and intermediate sanction process. The probation and parole officer shall complete a sanction form, which shall specify the technical violation, sanction and action plan to correct the noncompliant behavior resulting in the technical violation. The probation and parole officer shall refer to the matrix to determine the supervision, treatment and sanction appropriate to address the noncompliant behavior. The probation and parole officer shall refer the violation information and recommended response with a sanction plan to the Department to be heard by a hearing officer. The Department shall develop the policies and procedures necessary to implement this section.
