Section 1-551.1 A. Such registry may include data necessary for epidemiological surveys and scientific research, and other data which is necessary and proper to further the recognition, prevention, control, treatment and cure of cancer, precancerous and tumorous diseases.

B. The Commissioner, pursuant to rules of the State Board of Health, ~~may~~ shall require any hospital, clinic, laboratory, pathologist, physician or dentist, or any facility which provides diagnostic or treatment services for cancerous diseases and precancerous conditions, to report any or all data and information

2. Patient's residential, family, environmental, occupational and medical histories; and

3. Physician's name, diagnosis, stage of the disease, method of treatment and the name and address of any facility providing treatment.

C. The provisions of subsection B of this section shall not apply to ambulatory surgical centers, as defined by Section 2657 of this title, upon submission of a signed affidavit that the ambulatory surgical center utilizes a sole source pathology laboratory to report any or all data and information necessary for the purposes of this act.

D. The Commissioner shall protect the identity of the patient and physician involved in any report required by this act, and may not release their identity without written consent, except that:

- a. the research activity is determined to be in the interest of the public health and welfare,
- b. the person conducting the research provides written information about the purpose of the research project, the nature of the data to be collected and how the researcher intends to analyze it, the records the researcher wishes to review, and the safeguards the researcher will take to protect the identity of the patients whose records the researcher will be reviewing,

However, if a researcher requests additional information or an individual patient's participation in a research project, the researcher must first obtain the written consent of the patient's attending physician. If the consent of the patient's attending physician is obtained, the researcher must then obtain the individual cancer patient's written consent by having the patient complete a release of confidential medical information form;

3. Data on patients may be shared with other registries, private or governmental, within or without the state, provided that a reciprocal data-sharing agreement, approved by the Commissioner, is implemented with that registry. E. Nothing in this act shall be construed to compel any individual to submit to any medical examination, treatment or supervision of any kind; nor shall anyone providing information in accordance with this act be deemed to be, or held liable for, divulging confidential information. An individual shall have the right to deny registration on religious grounds.

F. The State Board of Health is empowered to adopt reasonable regulations to carry out the provisions of this act.
