8 AS INTRODUCED

9 A Resolution instructing the Office of Management and
10 Enterprise Services to follow certain contract and
11 provide MedEncentive certain data; instructing the
12 Office of Management and Enterprise Services and
13 MedEncentive to engage in certain partnership; and
14 directing distribution.

15 WHEREAS, MedEncentive is an outstanding Oklahoma-based company
16 providing a patented, web-based program that incents both doctors
17 and patients to be "mutually accountable" for adherence to best
18 clinical practices and healthy behaviors in a manner that promotes
19 health literacy and lowers healthcare costs; and

20 WHEREAS, MedEncentive's mutual accountability program (MAP) has
21 been shown to save millions of healthcare dollars by improving
22 health and health care; and

23 WHEREAS, MedEncentive's MAP has also been shown to save lives;
24 and

1 WHEREAS, Section 1329.1 of Title 74 of the Oklahoma Statutes
2 requires the Office of Management and Enterprise Services to
3 contract with a vendor to conduct a pilot project to test the cost-
4 containment capabilities of a mutual accountability program among
5 teachers, state employees and their families and physicians covered
6 by the state's HealthChoice health plan; and

7 WHEREAS, MedEncentive agreed to subject its program to the
8 scrutiny of the public trial set forth in Section 1329.1 of Title 74
9 of the Oklahoma Statutes, provided the pilot project was a properly
10 conducted experiment that produced results that could be validated
11 by experts in the field of population health; and

12 WHEREAS, MedEncentive entered into a contractual agreement with
13 the Office of Management and Enterprise Services consisting of terms
14 and conditions intended to ensure a valid experiment, to include a
15 stipulation that the Office of Management and Enterprise Services
16 provides MedEncentive access to HealthChoice utilization data that,
17 according to its expertise, MedEncentive deemed necessary to operate
18 its program; and

19 WHEREAS, failure to provide MedEncentive access to requested
20 data prevented MedEncentive from fulfilling its cost-containment
21 obligations under the contract, which is in direct violation of the
22 statute and invalidates the pilot project, wasting millions of
23 taxpayers' dollars.
