IN THE HOUSE OF REPRESENTATIVES

MAY 12, 2015

Mr. LYNCH (for himself, Mr. KING of New York, Ms. CLARK of Massachusetts, Mr. RUSH, Mr. MCGOVERN, Mr. KEATING, and Mr. LIPINSKI) introduced the following bill; which was referred to the Committee on Natural Resources

A BILL

To authorize the National Emergency Medical Services Memorial Foundation to establish a commemorative work in the District of Columbia and its environs, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. FINDINGS.**

4 Congress finds as follows:

5 (1) Each year, in every corner of the Nation,
6 the 850,000 first responders of Emergency Medical
7 Services answer more than 30,000,000 calls to serve

1 22,000,000 patients in need of life saving care and
2 comfort at a moment's notice and without reserva-
3 tion. With little regard for their own safety and in
4 the face of all hazards the men and women of Emer-
5 gency Medical Services respond across the spectrum
6 of incidents from a single person's medical emer-
7 gency to the naturally occurring or man-made disas-
8 ters, including terrorist attacks that threaten the en-
9 tire Nation. This commitment to others, at a mo-
10 ment's notice and despite risk, exemplifies the finest
11 traditions of American spirit.

12 (2) As an element of the Nation's homeland de-
13 fense strategy, Emergency Medical Services stands
14 on the "Nation's first line of defense in the preven-
15 tion and mitigation of risk from terrorist attacks,
16 man-made incidents, and natural disasters.". The
17 men and women of Emergency Medical Services,
18 alongside those in Law Enforcement and the Fire
19 Service, serving in both the public and private sec-
20 tors as career and volunteer emergency medical serv-
21 ice providers, are a critical element of the Nation's
22 homeland and national security efforts and provide
23 for the domestic tranquility of its citizens.

24 (3) All too often the risks associated with the
25 critical role of Emergency Medical Services results in

1 an unacceptable rate of injury and fatality to these
2 responders. Statistics compiled by the United States
3 Department of Labor and the National Highway
4 Safety Administration indicate that emergency med-
5 ical services providers die in the line of duty at a
6 rate more than twice the national average for all oc-
7 cupational fatalities and during their careers experi-
8 ence an injury rate of virtually 100 percent.

9 (4) We as a Nation have historically and con-
10 tinually relied on the selfless and ultimate sacrifices
11 made by the men and women of this great country,
12 their families, and loved ones in order to maintain
13 the domestic tranquility, safety, and security of this
14 Nation. The men and women of Emergency Medical
15 Services continue to serve in this finest tradition, in
16 the face of unacceptable sacrifice, risk and danger in
17 service to the Nation and its citizens.

18 (5) The scope of responsibility assumed by the
19 men and women of the Emergency Medical Services
20 is broad and unique and their sacrifice and commit-
21 ment in service to our Nation are deserving of a
22 commemorative work that recognizes such.
