IN THE HOUSE OF REPRESENTATIVES

OCTOBER 12, 2018

Mr. FORTENBERRY (for himself and Mrs. LOWEY) introduced the following bill; which was referred to the Committee on Foreign Affairs

A BILL

To establish the Palestinian Partnership Fund to promote joint economic development and finance joint ventures between Palestinian entrepreneurs and companies in the United States, Israel, countries in the Middle East to improve economic cooperation and people to people exchanges to further shared community building, peaceful coexistence, dialogue, and reconciliation between Israelis and Palestinians.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Palestinian Partner-
3 ship Fund Act of 2018”.

4 **SEC. 2. FINDINGS.**

5 Congress finds the following:

6 (1) While the United States and its inter-
7 national allies continue to support diplomatic and
8 political negotiations between the representatives of
9 the parties to Israeli-Palestinian conflict and others,
10 in the long run, such efforts require broad popular
11 support among people to succeed. In order to
12 achieve lasting peace in the Middle East, the people
13 who live there must, over time, sustain any potential
14 high-level agreements.

15 (2) Through support for joint economic initia-
16 tives and people-to-people exchanges, millions of or-
17 ordinary Israelis and Palestinians affected by this con-
18 flict can assist in building support for lasting peace.

19 (3) The Palestinian technology sector is grow-
20 ing by approximately 10 percent annually and, as of
21 2018, accounts for approximately 6 percent of the
22 Palestinian gross domestic product.

23 (4) In the Palestinian territories, each new job
24 in the technology sector contributes an estimated
25 \$98,000 in value added per year, compared to

1 \$16,000 of value added per year, on average, that is
2 contributed by jobs in other sectors.

3 (5) Palestinian entrepreneurs could greatly ben-
4 efit from more start-up experience and improved ac-
5 cess to experienced investors, professional networks,
6 and foreign partners.

7 **SEC. 3. SENSE OF CONGRESS.**

8 It is the sense of Congress that—

9 (1) building a viable Palestinian economy is
10 central to the effort to preserve the possibility of a
11 2-state solution;

12 (2) technology-led economic development in the
13 Palestinian territories will create much needed em-
14 ployment, stem “brain drain” of Palestinian talent,
15 and contribute to regional stability;

16 (3) cooperation between the Palestinian, United
17 States, and Israeli technology sectors will benefit the
18 Palestinian, American, and Israeli people and should
19 be encouraged;

20 (4) strengthening cooperation between the Pal-
21 estinian territories, the United States, and Israel in
22 the areas of applied technology industry and people-
23 to-people exchanges will—

24 (A) increase the bonds of friendship and
25 understanding between the people living in the

1 Palestinian territories and the people of the
2 United States and Israel; and

3 (B) advance the state of research and de-
4 velopment to the benefit of all parties; and

5 (5) United States and international support for
6 grassroots people to people efforts aimed at shared
7 economic growth, reconciliation, and fostering toler-
8 ance can help serve as an antidote to false propa-
9 ganda by terrorist groups and the growing issue of
10 incitement.
