IN THE HOUSE OF REPRESENTATIVES

JUNE 4, 2020

Mr. CROW (for himself, Mr. LAMBORN, Mr. HECK, and Mr. YOUNG) introduced the following bill; which was referred to the Committee on Armed Services

A BILL

To amend title 10, United States Code, to codify and rename the Office of Economic Adjustment of the Department of Defense, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Defense Community
5 Investment Act”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

8 (1) The Office of Economic Adjustment,
9 through relationships with defense communities built

1 over the course of years, is uniquely situated and
2 technically staffed to effectively administer the Com-
3 munity Investment Program of the Department of
4 Defense and to help States and communities main-
5 tain strong relationships that address community
6 challenges while simultaneously supporting military
7 readiness.

8 (2) Installation readiness and resiliency does
9 not stop at the fence line, and often requires coordi-
10 nation and planning with other organizations of the
11 Department of Defense, the Armed Forces, other
12 Federal departments and agencies, and communities
13 surrounding military installations.

14 (3) The Community Investment Program en-
15 ables States and communities to organize, evaluate,
16 and plan for appropriate community investments
17 that support the sustainability, readiness, and
18 growth of a military mission at an installation by—

19 (A) addressing impacts that mission
20 growth may have on everything from housing,
21 schools, transportation, utilities, access to med-
22 ical services, and other public services;

23 (B) providing funding to construct, ren-
24 ovate, repair, or expand public schools located

1 on military installations to address capacity and
2 facility condition deficiencies; and

3 (C) improving accessibility and safety of
4 access to medical facilities for wounded war-
5 riors, veterans, staff, and all other eligible bene-
6 ficiaries.

7 (4) The Defense Community Infrastructure
8 Pilot Program authorizes the Secretary of Defense
9 to make grants, conclude cooperative agreements,
10 and provide supplemental funds to address defi-
11 ciencies in community infrastructure supportive of a
12 military installation.

13 (5) The Defense Manufacturing Communities
14 Program authorizes long-term investments by the
15 Secretary of Defense in critical skills, facilities, re-
16 search and development, and small business support
17 by designating and supporting consortiums in order
18 to strengthen national security innovation.

19 (6) The Office of Economic Adjustment con-
20 tinues to help communities affected by base realign-
21 ments and closures to address issues by assisting in
22 land use planning to respond to unanticipated envi-
23 ronmental contamination and the availability of new
24 parcels of land for redevelopment.

1 (7) Industry resilience projects support critical
2 military missions by building a more competitive and
3 resilient defense industrial base, creating closer civil-
4 ian-military partnerships, and promoting community
5 and economic development that support key military
6 missions, including by—

7 (A) promoting industry resilience, with
8 funding that helps protect critical production
9 capabilities and expand markets for defense
10 suppliers;

11 (B) enhancing military modernization, by
12 helping defense suppliers become more innova-
13 tive and invent, develop, and deploy techno-
14 logically superior products for the Armed
15 Forces; and

16 (C) preserving military readiness, by help-
17 ing communities, companies, and workers be-
18 come more agile and responsive to the fluid
19 military needs and requirements.

20 (8) The Military Installation Sustainability Pro-
21 gram of assistance provides technical and financial
22 assistance to States and local governments to ana-
23 lyze and implement actions necessary to foster, pro-
24 tect, and enhance military installation sustainability
25 that alleviates and prevents incompatible develop-

1 ment and other manmade or natural threats to in-
2 stallation resiliency including—

- 3 (A) compatible use and joint land use stud-
4 ies;
5 (B) compatible use plans; and
6 (C) military installation resilience reviews.

7 (9) Reductions to the budget of the Office of
8 Economic Adjustment will adversely affect the de-
9 fense community missions the Office supports, harm
10 small businesses, impede efforts to rebuild schools
11 for children of members of the Armed Forces, and
12 compromise readiness and infrastructure resiliency
13 efforts.
