19 (2) It is in the national interest to promote
20 truly innovative approaches that have the potential
21 to yield positive environmental and transportation

2 views for transportation projects, including innovative
3 practices that—

4 (1) integrate environmental planning or other
5 techniques involving consideration of multiple re-
6 sources on a watershed or ecosystem scale;

7 (2) enhance environmental mitigation and en-
8 hancement measures that will result in a substantial
9 improvement over existing conditions in an eco-
10 system or watershed;

11 (3) use innovative technologies that enable more
12 effective public participation in decision making, in-

11 cy, and shall post the decision on the agency's public
12 website, and publish the decision in the Federal Reg-
13 ister. The Secretary's notice shall identify, with
14 specificity, each Federal requirement that has been
15 waived or otherwise modified. This decision shall be
16 final.
