3 (a) INTERPRETIVE NUTRITION INFORMATION.—Sec-  
 4 tion 403 of the Federal Food, Drug, and Cosmetic Act  
 5 (21 U.S.C. 343) is amended by adding at the end the fol-  
 6 lowing:

7 “(z)(1) Except as provided in subparagraphs (3), (4),  
 8 and (5) of paragraph (q), if it is food (other than a dietary  
 9 supplement) intended for human consumption and is of-  
 10 fered for sale and otherwise required to bear nutrition la-  
 11 beling, unless its principal display panel bears interpretive  
 12 nutrition information.

13 “(2) Final regulations regarding the interpretive nu-  
 14 trition information required under subparagraph (1) shall  
 15 meet the following criteria:

16 “(A) There shall be a standardized symbol sys-  
 17 tem that displays calorie information related to the  
 18 serving size determined under paragraph (q)(1)(A),

1 and interpretive nutrition information related to the  
2 content of added sugars, sodium, saturated fat, and  
3 any other nutrients that the Secretary determines  
4 the highlighting of which will assist consumers in  
5 maintaining healthy dietary practices, including by  
6 highlighting products containing high levels of such  
7 nutrients.

8 “(B) The system shall clearly distinguish be-  
9 tween products of greater or lesser nutritional value.

10 “(C) The information shall—

11 “(i) appear in a consistent location on the  
12 principal display panels across products;

13 “(ii) have a prominent design that visually  
14 contrasts with existing packaging design; and

15 “(iii) be sufficiently large to be easily leg-  
16 ible.

17 “(3) In promulgating regulations regarding the inter-  
18 pretive nutrition information required under subpara-  
19 graph (1) and the standardized symbol system required  
20 under subparagraph (2)(A), the Secretary shall take into  
21 account published reports by the Health and Medicine Di-  
22 vision of the National Academy of Sciences, Engineering,  
23 and Medicine regarding interpretive nutrition information,  
24 and base regulations on the following principles:

1           “(A) Consumers should be able to quickly and  
2           easily comprehend the meaning of the system as an  
3           indicator of a product’s contribution to a healthy  
4           diet without requiring specific or sophisticated nutri-  
5           tional knowledge.

6           “(B) The nutrition information should be con-  
7           sistent with the Nutrition Facts Panel and with the  
8           recommendations of the Dietary Guidelines for  
9           Americans.

10           “(C) The information should aim to facilitate  
11           consumer selection of healthy product options, in-  
12           cluding among nutritionally at-risk subpopulations.

13           “(4) The Secretary should periodically evaluate the  
14           standardized symbol system required under subparagraph  
15           (2)(A) to assess its effectiveness in facilitating consumer  
16           selection of healthy product options and the extent to  
17           which manufacturers are offering healthier products as a  
18           result of the disclosure.

19           “(5) The implementation of this paragraph should be  
20           accompanied by appropriate consumer education and pro-  
21           motion campaigns determined by the Secretary.”.

22           (b) PERCENTAGE OF WHEAT AND GRAINS IN GRAIN-  
23           BASED PRODUCTS, AND AMOUNT OF REAL FRUIT, VEGE-  
24           TABLE, AND YOGURT IN PRODUCTS BEARING FRUIT,  
25           VEGETABLE, AND YOGURT CLAIMS.—Section 403 of the

1 Federal Food, Drug, and Cosmetic Act, as amended by  
2 subsection (a), is further amended by adding at the end  
3 the following:

4 “(aa) If, in the case of food other than a dietary sup-  
5 plement, the principal display panel bears—

6 “(1) the term ‘whole wheat’, ‘whole grain’,  
7 ‘made with whole grain’, or ‘multigrain’;

8 “(2) a declaration of the whole grain content by  
9 weight;

10 “(3) the term ‘wheat’ on a wheat bread, pasta,  
11 or similar product that is typically made from wheat;  
12 or

13 “(4) any similar descriptive phrases, terms, or  
14 representations suggesting the product contains  
15 whole grains,

16 unless the amounts of whole grains and refined grains,  
17 expressed as a percentage of total grains, are conspicu-  
18 ously disclosed in immediate proximity to the most promi-  
19 nent descriptive phrase, term, or representation using a  
20 font color and formatting of equivalent prominence to the  
21 descriptive phrase, term, or representation with respect to  
22 whole grain content, or unless 100 percent of the grains  
23 in the food are whole grains.

24 “(bb)(1) If, in the case of food other than a dietary  
25 supplement, the principal display panel bears—

1           “(A) the term ‘fruit’, ‘fruity’, ‘froot’, ‘frooty’, or  
2           ‘fruit-flavored’;

3           “(B) representations, depictions, or images of  
4           such ingredients; or

5           “(C) any similar descriptive phrases, terms, or  
6           representations suggesting the product contains fruit  
7           or any specific type of fruit,

8 unless the quantity per serving and form of fruit, includ-  
9 ing only the nutrient-dense forms, is declared on the prin-  
10 cipal display panel in a common household measure that  
11 is appropriate to the food, conspicuously, and in imme-  
12 diate proximity to the most prominent term, representa-  
13 tion, depiction, or image of fruit.

14           “(2) The Secretary shall by regulation establish  
15 quantities below which such declaration shall state that  
16 the food does not contain any full serving of fruit.

17           “(3) In this paragraph, the term ‘nutrient-dense’,  
18 with respect to the form of an ingredient derived from a  
19 fruit, means the whole, cut, dried, pulp, puree, 100-per-  
20 cent juice, or fully reconstituted concentrate form, and not  
21 concentrates, powders, and other ingredients that are not  
22 whole, cut, dried, pulp, puree, 100-percent juice, or fully  
23 reconstituted concentrates.

24           “(cc)(1) If, in the case of food other than a dietary  
25 supplement, the principal display panel bears—

1           “(A) the term ‘vegetable’ or ‘veggie’;

2           “(B) representations, depictions, or images of  
3 such ingredients; or

4           “(C) any similar descriptive phrases, terms, or  
5 representations suggesting the product contains  
6 vegetables or any specific type of vegetable,  
7 unless the quantity per serving and form of vegetable, in-  
8 cluding only the nutrient-dense form, is declared on the  
9 principal display panel in a common household measure  
10 that is appropriate to the food, conspicuously, and in im-  
11 mediate proximity to the most prominent term, represen-  
12 tation, depiction, or image of vegetable.

13         “(2) The Secretary shall by regulation establish  
14 quantities below which such declaration shall state that  
15 the food does not contain any full serving of vegetable.

16         “(3) In this paragraph, the term ‘nutrient-dense’,  
17 with respect to the form of an ingredient derived from a  
18 vegetable, means the whole, cut, dried, pulp, puree, 100-  
19 percent juice, or fully reconstituted concentrate form, and  
20 not concentrates, powders, and other ingredients that are  
21 not whole, cut, dried, pulp, puree, 100-percent juice, or  
22 fully reconstituted concentrates.

23         “(dd)(1) If, in the case of food other than a dietary  
24 supplement, the principal display panel bears the term ‘yo-  
25 gurt’, unless—

1           “(A) the quantity per serving of yogurt is de-  
2           clared on the principal display panel in a common  
3           household measure that is appropriate to the food,  
4           conspicuously, in immediate proximity to the term;  
5           or

6           “(B) the first ingredient is cultured milk, cul-  
7           tured cream, cultured partially skimmed milk, or  
8           cultured skim milk.

9           “(2) The Secretary shall by regulation establish  
10          quantities below which such declaration shall state that  
11          the food does not contain any full serving of yogurt.”.

12          (c) COLORING AND FLAVORING.—Section 403 of the  
13          Federal Food, Drug, and Cosmetic Act, as amended by  
14          subsection (b), is further amended by adding at the end  
15          the following:

16          “(ee) If, in the case of food other than a dietary sup-  
17          plement, it bears or contains any artificial dye, or any  
18          added artificial or natural flavoring, unless such fact is  
19          prominently stated on the principal display panel of the  
20          packaging of the food. For the purposes of this paragraph,  
21          the term ‘artificial dye’ refers to a batch-certified dye cer-  
22          tified under part 74 of title 21, Code of Federal Regula-  
23          tions (or any successor regulations).”.

24          (d) SWEETENERS.—

3           section (c), is further amended by adding at the end  
4           the following:

5           “(ff) If, in the case of food other than a dietary sup-  
6           plement, it bears or contains any added artificial or nat-  
7           ural noncaloric sweetener, unless such fact is prominently  
8           stated on the principal display panel of the packaging of  
9           the food.”.

10          (2) REPORT.—

11           (A) IN GENERAL.—Not later than 2 years  
12           after the date of enactment of this Act, the Sec-  
13           retary of Health and Human Services (referred  
14           to in this Act as the “Secretary”) shall submit  
15           to Congress a report that—

16                   (i) evaluates whether—

17                           (I) manufacturers have increased  
18                           the use of low- and no-calorie sweet-  
19                           eners; and

20                           (II) the use of low- and no-cal-  
21                           orie sweeteners has risen to a level  
22                           that could result in negative health  
23                           consequences; and

24                           (ii) describes actions that will be  
25                           taken by the Secretary to address any in-

1           creased use of low- and no-calorie sweet-  
2           eners.

3           (B) MONITORING.—On completion of the  
4           report described in subparagraph (A), the Sec-  
5           retary shall—

6                   (i) periodically monitor for increased  
7                   use of low- and no-calorie sweeteners; and

8                   (ii) take action to address the use of  
9                   low- and no-calorie sweeteners if the use  
10                  has risen to a level that could result in  
11                  negative health consequences.

12          (e) CONSTRUCTION.—Nothing in this section, includ-  
13          ing any amendment made by this section, shall be con-  
14          strued as—

15                  (1) affecting any requirement in regulation in  
16                  effect as of the date of the enactment of this Act  
17                  with respect to matters that are required to be stat-  
18                  ed on the principal display panel of a package or  
19                  container of food that is not required by an amend-  
20                  ment made by this section; or

21                  (2) restricting the authority of the Secretary of  
22                  Health and Human Services to require additional in-

22 ment) be substantiated, then not later than 90 days after  
23 the date on which the Secretary makes such request, the  
24 manufacturer shall provide to the Secretary all docu-  
25 mentation in the manufacturer’s possession relating to the

19 ing healthy dietary practices, the label or labeling of such  
20 food shall contain, prominently and in immediate prox-

22 is high in such nutrient.”.

23           (2) REVISIONS TO REGULATIONS.—In promul-  
24 gating the regulations required by section 18, the  
25 Secretary of Health and Human Services shall revise

12 tains more than one gram of saturated fat per serv-  
13 ing, unless the label or labeling of the food discloses  
14 the level of saturated fat in the food in immediate  
15 proximity to such claim and with appropriate promi-  
16 nence which shall be no less than one-half the size  
17 of the claim with respect to the level of trans fats,”.

24 (a) USE OF THE TERM “NATURAL”.—

1           (1) IN GENERAL.—In promulgating the regula-  
2           tions required by section 18, the Secretary of Health  
3           and Human Services shall include regulations—

4                   (A) relating to use of the term “natural”  
5                   on the labeling of food (other than a dietary  
6                   supplement);

7                   (B) specifically addressing the use of such  
8                   term on the principal display panel and the in-  
9                   formation panel; and

10                  (C) requiring that any such use includes a  
11                  prominent disclosure explaining what the term  
12                  “natural” does and does not mean in terms of  
13                  ingredients and manufacturing processes.

14           (2) DEFINITION.—The regulations promulgated  
15           pursuant to paragraph (1) shall define the term  
16           “natural”—

17                   (A) to exclude, at a minimum, the use of  
18                   any artificial food or ingredient (including any  
19                   artificial flavor or added color); and

20                   (B) based on data, including data on con-  
21                   sumers’ understanding of the term as used in  
22                   connection with food.

23           (3) PROCESS.—In promulgating the regulations  
24           required by paragraph (1), the Secretary of Health  
25           and Human Services shall—

1 (A) conduct consumer surveys and studies  
2 and issue a timely call for relevant public sub-

6 the term “organic”; and

7 (B) fully consider the results of such sur-  
8 veys and studies, as well as such public submis-  
9 sions.

10 (b) USE OF TERM “HEALTHY”.—

11 (1) ADDED SUGARS AND WHOLE GRAINS.—

12 (A) IN GENERAL.—In promulgating the  
13 regulations required by section 18, the Sec-  
14 retary of Health and Human Services shall in-  
15 clude regulations to revise the regulations under  
16 the Federal Food, Drug, and Cosmetic Act (21  
17 U.S.C. 301 et seq.) relating to the use of the  
18 term “healthy” on the labeling of a food (other  
19 than a dietary supplement) to take into account  
20 the extent to which such food contains added  
21 sugars or whole grains.

22 (B) REQUIREMENT.—In making the revi-  
23 sions required by subparagraph (A) in the case  
24 of a food (other than a dietary supplement)  
25 that contains grains, the Secretary of Health

1           and Human Services shall not consider the food  
2           to be “healthy” unless 100 percent of the  
3           grains are whole grains.

4           (2) SODIUM.—In promulgating the regulations  
5           required by section 18, the Secretary of Health and  
6           Human Services shall revise the regulations under  
7           the Federal Food, Drug, and Cosmetic Act (21  
8           U.S.C. 301 et seq.) relating to the use of the term  
9           “healthy” on the labeling of a food (other than a di-  
10          etary supplement) to align labeling requirements re-  
11          lated to sodium with the daily value for sodium in  
12          the most recent Dietary Guidelines for Americans.

13          (3) PRINCIPLES FOR IMPLEMENTING REGULA-  
14          TIONS.—In promulgating regulations under para-  
15          graphs (1) and (2) regarding the use of the term  
16          “healthy”, the Secretary of Health and Human  
17          Services shall—

18                 (A) consider both food and nutrient cri-  
19                 teria; and

20                 (B) if requiring food labeled as “healthy”  
21                 to contain healthful ingredients—

22                         (i) consider only ingredients that  
23                         make up the core of a healthy eating pat-  
24                         tern; and

1 (ii) consider these ingredients only in  
2 their nutrient-dense forms (as such term in  
3 defined in paragraphs (bb) and (cc) of sec-  
4 tion 403 of the Federal Food, Drug, and  
5 Cosmetic Act, as added by section 2(b) of  
6 this Act).

7 **SEC. 5. FORMAT OF INGREDIENT LIST.**

8 (a) IN GENERAL.—In promulgating the regulations  
9 required by section 18, the Secretary of Health and  
10 Human Services shall include requirements for the format  
11 of the information required under section 403(i) of the  
12 Federal Food, Drug, and Cosmetic Act (21 U.S.C.  
13 343(i))—

14 (1) for the purpose of improving the readability  
15 of such information on the label of the food (other  
16 than a dietary supplement); and

17 (2) that are, as determined by the Secretary,  
18 necessary to assist consumers in maintaining healthy  
19 dietary practices.

20 (b) FORMAT REQUIREMENTS.—The format require-  
21 ments described in subsection (a) shall include require-  
22 ments for font size, uppercase and lowercase characters,  
23 serif and noncondensed font types, high-contrast between  
24 text and background, and bullet points between adjacent

1 ingredients with appropriate exemptions for small pack-  
 2 ages or other considerations.

3 (c) ENFORCEMENT OF INGREDIENT LIST.—Not later  
 4 than 2 years after the enactment of this Act, and every  
 5 2 years thereafter, the Secretary of Health and Human  
 6 Services shall submit a report to Congress on the Sec-  
 7 retary’s enforcement of—

8 (1) section 403(i) of the Federal Food, Drug,
