S. 3375

To amend the State Justice Institute Act of 1984 to provide technical assistance and training to State and local courts to improve the constitutional and equitable enforcement of fines, fees, and monetary bail, and for other purposes.

IN THE SENATE OF THE UNITED STATES

MARCH 3, 2020

Mr. SCHATZ (for himself, Mr. WYDEN, Mr. JONES, Mr. BLUMENTHAL, and Mr. MERKLEY) introduced the following bill; which was read twice and referred to the Committee on the Judiciary

A BILL

To amend the State Justice Institute Act of 1984 to provide technical assistance and training to State and local courts to improve the constitutional and equitable enforcement of fines, fees, and monetary bail, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “State Justice Improve-
5 ment Act”.

6 **SEC. 2. FINDINGS; PURPOSE.**

7 (a) FINDINGS.—Congress finds the following:

1 (1) The Supreme Court of the United States
2 has repeatedly held that the government may not in-
3 carcerate an individual solely because of the inability
4 of the individual to pay a fine or fee.

5 (2) In 2019, the United States Court of Ap-
6 peals for the Fifth Circuit ruled that it is unconsti-
7 tutional to imprison people for failing to pay fines
8 and fees without inquiring into their ability to pay.
9 The Fifth Circuit also ruled that it is unconstitu-
10 tional for judges to determine ability to pay when
11 court debts help pay court budgets.

12 (3) Under section 3142 of title 18, United
13 States Code, Federal judicial officers may not im-
14 pose a financial condition that results in the pretrial
15 detention of an individual.

16 (4) In 2017, a report by United States Com-
17 mission on Civil Rights evaluated evidence that—

18 (A) 47 states increased their fines and fees
19 in recent years, including fines and fees im-
20 posed on juveniles;

21 (B) in Virginia, 1 in 6 drivers had license
22 revoked as a result of an inability to pay court
23 fines and fees;

1 (C) in New Jersey, 42 percent of sus-
2 pended drivers lost their jobs as a result of the
3 suspension;

4 (D) in the 50 cities with the highest pro-
5 portion of revenues from fines, the median size
6 of the African-American population in each city
7 was greater than 5 times the median in the
8 United States;

9 (E) in Washington, Latinos received higher
10 fine assessments than non-Latino Whites for
11 similar offenses;

12 (F) 10 counties in California detained ap-
13 proximately 700 people per month for an aver-
14 age of 3 days as a result of a failure to pay and
15 driving with a suspended license; and

16 (G) according to the Department of Jus-
17 tice on the investigation of the Ferguson Police
18 Department, revenue collection, not public safe-
19 ty, was the primary impetus behind the collec-
20 tion of fines and fees.

21 (5) There is no clear evidence that fines and
22 fees are an effective crime deterrent.

23 (6) Defendants released from custody with no
24 financial penalty return to court at the same rate as
25 defendants released on financial bond.

1 (7) The burden of fines and fees is disproportion-
2 tionately shouldered by low-income communities and
3 communities of color, which in turn aggravates and
4 perpetuates poverty and racial inequalities.

5 (8) Cities with larger Black populations fine
6 residents more on a per capita basis and are more
7 reliant on fines. A 1 percent increase in a Black
8 population is associated with a 5 percent increase in
9 per capita revenue from fines and a 1 percent in-
10 crease in share of total revenue from fines.

11 (9) In addition, data on the extent to which in-
12 dividuals are jailed or otherwise penalized because of
13 their inability to pay fee-only offenses are insuffi-
14 ciently developed, preventing a full picture of the
15 pervasiveness of targeted fees, as well as the repet-
16 itive impact on individuals from both low-income
17 communities and communities of color.

18 (10) Decisions regarding pretrial release or de-
19 tention adds financial stress to individuals unable to
20 pay monetary bail and the jails holding those unable
21 to pay.

22 (11) Individuals gave up necessities like rent,
23 food, medical bills, car payments, and child support,
24 in order to pay down their court debt.

1 (12) Thirty-eight percent of people surveyed
2 committed a crime to pay off their court debt.

3 (13) Driver’s licenses are often suspended auto-
4 matically when cases are transferred to private col-
5 lectors and are not restored until debts are paid in
6 full.

7 (14) Thirty States continue to require payment
8 of all legal financial obligations before voting rights
9 are restored, effectively disenfranchising individuals
10 because of an inability to pay.

11 (15) Many jurisdictions across the country rely
12 on fines and fees as a primary revenue source.

13 (16) A 2019 analysis of fine revenues found
14 that—

15 (A) fines are a critical source of funding,
16 at times accounting for more than half of all
17 general revenues;

18 (B) fines and fees account for more than
19 10 percent of general fund revenues for nearly
20 600 jurisdictions, and in at least 284 of those,
21 the share exceeded 20 percent, while another 80
22 governments reported even higher fines ac-
23 counting for more than half of general reve-
24 nues;

1 (C) annual revenues exceeding \$100 for
2 every adult resident, while 363 exceeded \$200
3 per adult in all the governments analyzed;

4 (D) the States with the highest fines and
5 fees revenue are Arkansas, Georgia, Louisiana,
6 New York, Oklahoma, and Texas; and

7 (E) jurisdictions where fines and forfeit-
8 ures accounted for more than 20 percent of
9 general fund revenues recorded a median house-
10 hold income of only \$39,594.

11 (17) The dependency on fines and fees creates
12 a harmful incentive for courts to levy fines and fees
13 on indigent individuals regardless of the severity of
14 the crime.

15 (18) However, some jurisdictions spent more
16 than the revenue they raised collecting fees, there-
17 fore losing money through this system.

18 (19) In some jurisdictions like New Orleans the
19 cost of incarcerating individuals unable to pay fines,
20 fees, and monetary bail exceeded the revenue gen-
21 erated from those practices.

22 (20) Some jurisdictions in Texas and New Mex-
23 ico spent 41 cents of every dollar of revenue they
24 raise from fees and fines on in-court hearings and
25 jail costs alone.

1 (21) In almost every State and the District of
2 Columbia, juvenile courts impose court costs, fines,
3 and fees on youth, their families, or both. These
4 costs may increase recidivism, increase the potential
5 of future jail or prison time, exacerbate racial in-
6 equality, and increase the economic and emotional
7 distress of low-income families.

8 (22) Imposing fines and fees on minors and
9 their families is ineffective as a revenue-generating
10 measure, often because minors in the criminal jus-
11 tice system come from indigent families. Imposing
12 these fines and fees increases recidivism and eco-
13 nomic and emotional hardship on families.

14 (b) PURPOSE.—The purpose of this Act is to create
15 a grant program to provide technical assistance and train-
16 ing to State and local courts to—

17 (1) improve the constitutional and equitable en-
18 forcement of fines, fees, and monetary bail;

19 (2) improve practices regarding the use of fines
20 and fees and their equitable enforcement when used;
21 and

22 (3) collect data to better understand the re-
23 search and best practices of State and local courts
24 on a Federal level.
