
SECOND SUBSTITUTE HOUSE BILL 1272

State of Washington

66th Legislature

2019 Regular Session

By House Appropriations (originally sponsored by Representatives Thai, Harris, Slatter, Ryu, Riccelli, Kilduff, Caldier, Paul, Peterson, Stonier, Shewmake, Appleton, Orwall, Wylie, Gregerson, and Pollet)

READ FIRST TIME 03/01/19.

1 AN ACT Relating to promoting student health and success through
2 adequate school lunch durations; amending RCW 28A.235.150; adding new
3 sections to chapter 28A.235 RCW; creating a new section; and
4 providing an expiration date.

5 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

6 NEW SECTION. **Sec. 1.** (1) The legislature recognizes that proper
7 nutrition is essential for a student's overall physical and emotional
8 health, and that good health promotes success within and outside of
9 academic environments.

10 (2) The legislature also recognizes that it has made recent and
11 historic investments in Washington's public school system, but that
12 the benefits of those investments cannot be fully realized if
13 students' nutritional needs are unmet.

14 (3) The legislature finds that all students should have a lunch
15 period that provides them with an adequate amount of time to obtain,
16 sit down, and consume a meal, and that when students have inadequate
17 lunch periods, they may make meal choices of convenience that do not
18 promote physical and emotional health.

19 (4) The legislature further finds that federal regulations
20 adopted by the food and nutrition service of the United States
21 department of agriculture to implement the national school lunch act,

1 Title 42 U.S.C. Sec. 1751 et seq., encourage schools to provide
2 sufficient lunch periods that are long enough to give all students
3 adequate time to be served and to eat their lunches, but that in many
4 instances, the duration of school lunch periods are constrained by
5 educational and other factors.

6 (5) The legislature, therefore, intends to promote school lunch
7 periods of adequate duration through designated demonstration sites,
8 the development and implementation of model policies and procedures,
9 and other actions intended to ensure that students have an adequate
10 amount of time to obtain, sit down, and consume a meal.

11 NEW SECTION. **Sec. 2.** A new section is added to chapter 28A.235
12 RCW to read as follows:

13 The definitions in this section apply throughout sections 3 and 5
14 of this act and RCW 28A.235.150 unless the context clearly requires
15 otherwise.

16 (1) "Lunch period" means the total time that students are
17 allotted for obtaining and consuming lunches. "Lunch period" includes
18 the student time spent obtaining and consuming a lunch.

19 (2) "Seated lunch duration" means the time that students have to
20 sit and consume their lunch. "Seated lunch duration" is determined by
21 subtracting the time students spend traveling to and from the
22 cafeteria or other location where lunches are served, and obtaining a
23 lunch, from the lunch period. "Seated lunch duration" includes time
24 required for properly returning cafeteria trays or other items and
25 clean-up duties generally expected of all students.

26 NEW SECTION. **Sec. 3.** A new section is added to chapter 28A.235
27 RCW to read as follows:

28 (1)(a) The superintendent of public instruction shall designate
29 six public schools as demonstration sites to implement and evaluate
30 procedures to ensure that students have a lunch period that:

31 (i) Includes a seated lunch duration of at least twenty minutes
32 for the consumption of their food; and

33 (ii) Is reflective of the time spent traveling to and from the
34 location where lunches are served and the time spent obtaining a
35 lunch.

36 (b) The selected demonstration sites must reflect diversity of
37 school types, locations, and student populations. The selection
38 process must include, but not be limited to, considerations related

1 to school geography, student enrollment, socioeconomic factors, and
2 school campus size.

3 (2) Schools designated as demonstration sites may not serve
4 students in a grade higher than six and must be selected through an
5 application process developed for this purpose by the superintendent
6 of public instruction. The application process must allow applicant
7 schools to identify academic and nonacademic measures that they will
8 monitor as a result of being designated as a demonstration site. A
9 school may not be designated as a demonstration site for less than
10 ninety school days nor more than two school years.

11 (3) Schools designated as demonstration sites must share
12 recommendations, technical guidance, average seated lunch durations
13 before and after implementing procedures in accordance with
14 subsection (1) of this section and other applicable data, and best
15 practices with the office of the superintendent of public instruction
16 and any school or school district seeking to implement similar lunch
17 period procedures.

18 (4) The office of the superintendent of public instruction shall
19 provide technical assistance to schools selected as demonstration
20 sites.

21 (5) The office of the superintendent of public instruction shall
22 report its findings and recommendations to the governor, and in
23 accordance with RCW 43.01.036, the education committees of the house
24 of representatives and the senate by July 1, 2021. The report
25 required by this subsection must include a summary of the information
26 provided by schools to the office of the superintendent of public
27 instruction under subsection (3) of this section.

28 (6) This section expires August 31, 2021.

29 **Sec. 4.** RCW 28A.235.150 and 2018 c 8 s 7 are each amended to
30 read as follows:

31 (1)(a) To the extent funds are appropriated for this specific
32 purpose, the superintendent of public instruction may award grants to
33 school districts to:

34 (i) Increase awareness of and participation in school breakfast
35 and lunch programs, including breakfast after the bell programs;

36 (ii) Improve program quality, including the nutritional content
37 of program food and the promotion of nutritious food choices by
38 students;

1 (iii) Promote innovative school-based programs, including but not
2 limited to developing gardens that provide produce used in school
3 breakfast or lunch programs; (~~and~~)

4 (iv) Improve the equipment and facilities used in the programs;
5 and

6 (v) Implement demonstration sites in accordance with section 3 of
7 this act and adopt and enforce policies and procedures under section
8 5 of this act.

9 (b) If applicable, school districts shall demonstrate that they
10 have applied for applicable federal funds before applying for funds
11 under this subsection.

12 (2) To the extent funds are appropriated for this specific
13 purpose, the superintendent of public instruction shall increase the
14 state support for school breakfasts and lunches, including breakfast
15 after the bell programs.

16 (3) As used in this section, "breakfast after the bell" has the
17 definition in RCW 28A.235.200.

18 NEW SECTION. Sec. 5. A new section is added to chapter 28A.235
19 RCW to read as follows:

20 (1) By February 14, 2020, the Washington state school directors'
21 association established in chapter 28A.345 RCW shall adopt a model
22 policy and procedure that school districts may use to ensure that
23 students have a lunch period that:

24 (a) Includes a seated lunch duration of at least twenty minutes
25 for the consumption of their food;

26 (b) Is reflective of the time spent traveling to and from the
27 location where lunches are served and the time spent obtaining a
28 lunch; and

29 (c) Incorporates, to the extent appropriate and feasible,
30 pertinent recommendations from the office of the state auditor.

31 (2) By the beginning of the 2020-21 school year, school districts
32 may adopt and enforce policies and procedures consistent with the
33 model policy and procedures required by this section.

--- END ---
