HOUSE BILL 2923

State of Washington 64th Legislature 2016 Regular Session

By Representatives Moscoso and Manweller

AN ACT Relating to freight mobility strategic investment board duties relating to certain freight and rail planning; and amending RCW 47.06.045, 47.06A.020, and 47.76.220.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 **Sec. 1.** RCW 47.06.045 and 1998 c 175 s 10 are each amended to 6 read as follows:

7 The the statewide state-interest component of multimodal transportation plan shall include a freight mobility plan which shall 8 be developed by the freight mobility strategic investment board and 9 10 assess the transportation needs to ensure the safe, reliable, and 11 efficient movement of goods within and through the state and to 12 ensure the state's economic vitality. The freight mobility plan shall include a list of projects prioritized for investment according to 13 14 contribution to the movement of goods within and through freight corridors. 15

16 **Sec. 2.** RCW 47.06A.020 and 2013 c 104 s 1 are each amended to 17 read as follows:

18 (1) The board shall:

(a) Adopt rules and procedures necessary to implement the freightmobility strategic investment program;

1 (b) Solicit from public entities proposed projects that meet 2 eligibility criteria established in accordance with subsection (4) of 3 this section; and

(c) Review and evaluate project applications based on criteria 4 established under this section, and prioritize and select projects 5 6 comprising a portfolio to be funded in part with grants from state 7 funds appropriated for the freight mobility strategic investment program. In determining the appropriate level of state funding for a 8 project, the board shall ensure that state funds are allocated to 9 leverage the greatest amount of partnership funding possible. The 10 board shall ensure that projects included in the portfolio are not 11 12 more appropriately funded with other federal, state, or local government funding mechanisms or programs. The board shall reject 13 those projects that appear to improve overall general mobility with 14 limited enhancement for freight mobility. 15

16 The board shall provide periodic progress reports on its 17 activities to the office of financial management and the senate and 18 house transportation committees.

19

(2) The board may:

(a) Accept from any state or federal agency, loans or grants for
the financing of any transportation project and enter into agreements
with any such agency concerning the loans or grants;

23

(b) Provide technical assistance to project applicants;

(c) Accept any gifts, grants, or loans of funds, property, or financial, or other aid in any form from any other source on any terms and conditions which are not in conflict with this chapter;

(d) Adopt rules under chapter 34.05 RCW as necessary to carry outthe purposes of this chapter; and

(e) Do all things necessary or convenient to carry out the powersexpressly granted or implied under this chapter.

31 (3) The board shall designate strategic freight corridors within 32 the state. The board shall update the list of designated strategic 33 corridors not less than every two years, and shall establish a method 34 of collecting and verifying data, including information on city and 35 county-owned roadways.

36 (4) The board shall utilize threshold project eligibility37 criteria that, at a minimum, includes the following:

38 (a) The project must be on a strategic freight corridor;

39 (b) The project must meet one of the following conditions:

(i) It is primarily aimed at reducing identified barriers to
 freight movement with only incidental benefits to general or personal
 mobility; or

4 (ii) It is primarily aimed at increasing capacity for the 5 movement of freight with only incidental benefits to general or 6 personal mobility; or

7 (iii) It is primarily aimed at mitigating the impact on 8 communities of increasing freight movement, including roadway/railway 9 conflicts; and

(c) The project must have a total public benefit/total publiccost ratio of equal to or greater than one.

12 (5) From June 11, 1998, through the biennium ending June 30, 2001, the board shall use the multicriteria analysis and scoring 13 framework for evaluating and ranking eligible freight mobility and 14 freight mitigation projects developed by the freight mobility project 15 16 prioritization committee and contained in the January 16, 1998, 17 report entitled "Project Eligibility, Priority and Selection Process 18 for a Strategic Freight Investment Program." The prioritization 19 process shall measure the degree to which projects address important program objectives and shall generate a project score that reflects a 20 21 project's priority compared to other projects. The board shall assign scoring points to each criterion that indicate the relative 22 importance of the criterion in the overall determination of project 23 priority. After June 30, 2001, the board may supplement and refine 24 25 the initial project priority criteria and scoring framework developed 26 by the freight mobility project prioritization committee as expertise and experience is gained in administering the freight mobility 27 28 program.

29 (6) It is the intent of the legislature that each freight mobility project contained in the project portfolio approved by the 30 31 board utilize the greatest amount of nonstate funding possible. The 32 board shall adopt rules that give preference to projects that contain the greatest levels of financial participation from nonprogram fund 33 sources. The board shall consider twenty percent as the minimum 34 partnership contribution, but shall also ensure that there are 35 36 provisions allowing exceptions for projects that are located in areas where minimal local funding capacity exists or where the magnitude of 37 the project makes the adopted partnership contribution financially 38 39 unfeasible.

p. 3

1 (7) The board shall develop and recommend policies that address 2 operational improvements that primarily benefit and enhance freight 3 movement, including, but not limited to, policies that reduce 4 congestion in truck lanes at border crossings and weigh stations and 5 provide for access to ports during nonpeak hours.

6 (8) The board shall develop a state freight investment plan by 7 December 2018. The plan shall:

8 (a) Include a list of infrastructure projects that will enhance
9 the flow of goods within and through the state of Washington;

10 (b) Include projects regardless of jurisdictional sponsorship;

11 (c) Prioritize projects for investment according to contribution 12 to the movement of goods and recognizing the improving marginal 13 contribution of related projects within freight corridors; and

14 (d) Be the freight mobility strategic investment plan for the 15 state of Washington.

16 **Sec. 3.** RCW 47.76.220 and 1995 c 380 s 3 are each amended to 17 read as follows:

18 (1) The <u>freight mobility strategic investment board, in</u> 19 <u>collaboration with the</u> department of transportation, shall prepare 20 and periodically update a state rail plan, the objective of which is 21 to identify, evaluate, and encourage essential rail services. The 22 plan shall:

23 (a) Identify and evaluate mainline capacity issues;

24 (b) Identify and evaluate port-to-rail access and congestion 25 issues;

(c) Identify and evaluate those rail freight lines that may beabandoned or have recently been abandoned;

(d) Quantify the costs and benefits of maintaining rail serviceon those lines that are likely to be abandoned;

30 (e) <u>Include rail portions of the prioritized freight investment</u> 31 <u>plan under RCW 47.06A.020(8);</u>

32 (f) Establish priorities for determining which rail lines should 33 receive state support. The priorities should include the anticipated 34 benefits to the state and local economy, the anticipated cost of road 35 and highway improvements necessitated by the abandonment or capacity 36 constraints of the rail line, the likelihood the rail line receiving 37 funding can meet operating costs from freight charges, surcharges on 38 rail traffic, and other funds authorized to be raised by a county or port district, and the impact of abandonment or capacity constraints
 on changes in energy utilization and air pollution;

3 ((((f)))) (<u>(g)</u> Identify and describe the state's rail system;

(((g))) <u>(h)</u> Prepare a state freight rail system map;

4

5 ((((h))) <u>(i)</u> Identify and evaluate rail commodity flows and 6 traffic types;

7 (((i))) (j) Identify lines and corridors that have been rail 8 banked or preserved; and

9 (((j))) <u>(k)</u> Identify and evaluate other issues affecting the 10 state's rail traffic.

11 (2) The state rail plan may be prepared in conjunction with the 12 rail plan prepared by the department pursuant to the federal <u>railroad</u> 13 <u>revitalization and regulatory reform act</u>.

--- END ---
