**State of Washington****68th Legislature****2024 Regular Session**

**By** Senate Health & Long Term Care (originally sponsored by Senators Liiias, Rivers, Dhingra, Nobles, Pedersen, Robinson, and Van De Wege)

1 AN ACT Relating to implementing recommendations from the 2022  
2 sexually transmitted infection and hepatitis B virus legislative  
3 advisory group for the treatment of syphilis; amending RCW  
4 18.360.050; adding a new section to chapter 74.09 RCW; creating a new  
5 section; and declaring an emergency.

6 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

7 NEW SECTION. **Sec. 1.** (1) The legislature recognizes  
8 Washington's syphilis epidemic continues to grow, causing long-term  
9 health consequences and deaths that are preventable. Between 2019 and  
10 2021, the number of reported syphilis cases in Washington state  
11 increased by 49 percent, while the number of cases of primary and  
12 secondary syphilis, an early stage infection characterized by a high  
13 risk of transmission, increased by 79 percent.

14 (2) In 2021, the legislature funded the sexually transmitted  
15 infection and hepatitis B virus legislative advisory group which  
16 produced policy recommendations in 2022 that included allowing  
17 medical assistants with telehealth access to a supervising clinician  
18 to provide intramuscular injections for syphilis treatment. It is the  
19 intent of the legislature to increase access to syphilis treatment to  
20 populations with high rates of syphilis and who are at the most risk  
21 of serious health outcomes due to syphilis infection.
