AUTHORS SUBJECT TO CHANGE

1 **AN ACT** *to create* 20.255 (2) (bz) and 115.384 of the statutes; **relating to:** aid to
2 school districts that share services for costs associated with student
3 information systems and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill is explained in the NOTES provided by the Joint Legislative Council in the bill.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

JOINT LEGISLATIVE COUNCIL PREFATORY NOTE: This bill was prepared for the Joint Legislative Council's Study Committee on Shared School District Services.

Current law does not specifically provide state aid to school districts for purchasing and implementing student information systems.

The bill creates a categorical aid program, administered by the Department of Public Instruction (DPI), for school districts that apply for reimbursement for costs associated with purchasing and implementing a new student information system. In order to be eligible for this aid, a school district must either be (1) a union high school district or one of its included elementary school districts that purchases a new student information system to streamline communications between the districts; or (2) a school district that enters into a shared services agreement with one or more other school

districts and purchases a new student information system in order to accommodate those shared services. Aid provided to a school district under this program may be used to pay for purchasing a new student information system, data migration to a new student information system, and training staff on the use of a new student information system. A school district may apply for this aid one time.

The bill creates an annual sum certain appropriation of \$450,000 in fiscal years 2023-24 and 2024-25 for this program. The amounts must be prorated if total eligibility exceeds the appropriated amount. Aid provided to a school district may not exceed \$75,000. The bill takes effect on the day after publication, or the 2nd day after publication of the 2023 biennial budget act, whichever is later.
