

2019 ASSEMBLY BILL 639

December 2, 2019 - Introduced by Representatives STAFSHOLT, MAGNAFICI, QUINN, ZIMMERMAN and PETRYK. Referred to Committee on Mental Health.

AUTHORS SUBJECT TO CHANGE

1 **AN ACT** *to create* 51.428 of the statutes; **relating to:** pilot program for
2 reimbursement of certain costs relating to hospitalization for purposes of
3 emergency detention.

Analysis by the Legislative Reference Bureau

This bill requires the Department of Health Services to provide, as a pilot project, to hospitals located in Barron, Burnett, Dunn, Pierce, Polk, St. Croix, and Washburn Counties reimbursement for housing patients for purposes of emergency detention in an amount determined by DHS up to 80 percent of the difference between the hospital's average cost per bed per day and the average rate received per bed per day calculated by averaging the rate received under Medicare, Medical Assistance, and other insurance. County health departments must cover the remaining portion of each hospital's reimbursement. In order to qualify for the pilot program reimbursement, each participating hospital must report to the county health department its average cost per bed per day and the average rate per bed per day. Each county health department receiving that information from hospitals shall collect the information and then submit it to DHS. The bill also provides that hospitals are not required to participate in the pilot program; a hospital located in any of the participating counties may opt out of the program and will not be required, for purposes of the pilot program, to provide the cost or rate information to the county health department. Under the bill, only hospital services provided on or after July 1, 2021, are eligible for reimbursement through the pilot program.
