1 **AN ACT** *to renumber and amend* 121.91 (4) (f) 1.; *to amend* 121.91 (4) (f) 1m.
2 c.; and *to create* 121.91 (4) (f) 1. a. and b. of the statutes; **relating to:** the school
3 district revenue limit adjustment for declining enrollment.

Analysis by the Legislative Reference Bureau

Currently, if a school district's enrollment declines, for one year only its revenue limit is increased by the amount of additional revenue that would have been allowed had there been no decline in enrollment.

This bill extends the declining enrollment revenue adjustment to two years. Under the bill, in the first year of an enrollment decline, a school district's revenue limit is increased by 100 percent of the allowable revenues that the decline would have generated. In the second year, the district receives a revenue adjustment equal to 50 percent of the first-year adjustment.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
